

SEATTLE CITY LIGHT 2019 ENERGY CONSERVATION INCENTIVES COMMERCIAL AND MULTIFAMILY RETROFIT PROJECTS

Incentive rates effective for all new projects received after August 1, 2018.

CONSERVATION ACTION	INCENTIVE (\$/kWh)	SMALL COMMERCIAL INCENTIVE (\$/kWh)*	MEASURE NOTES
COMMERCIAL AND MULTIFAMILY RETROFIT LIGHTING**			
Commercial retrofit lighting projects require a project application, signed customer agreement form and project workbook.			
LED fixtures and retrofit kits	\$0.15	\$0.18	Small Commercial customers receive a 20% bonus
Standard controls / Non-Qualified Product Listed advanced lighting controls	\$0.15	\$0.18	Small Commercial customers receive a 20% bonus
HID replacement lamp products	\$0.10	\$0.10	
Qualified Product Listed Networked Lighting Controls	\$50 per fixture	\$50 per fixture	In addition to \$/kWh incentive for fixture efficiency. See DesignLights Consortium's NLC Qualified Product List for details
*Small Commercial customers are on the Small General Service rate class and have a monthly electrical demand of ≤50kW. An Energy Advisor can confirm your rate class. **For multifamily projects, only common areas are eligible for incentives.			
CONSERVATION ACTION	INCENTIVE (\$/ea)	MEASURE NOTES	
LIGHTING TO GO			
Lighting to Go incentives are applied at the point-of-sale and are passed on at the time of purchase.			
TLEDs (all types A/B/C)	\$2.00	To be eligible for incentives, products must be listed on a Seattle City Light recognized qualified product list, like ENERGY STAR or DesignLights Consortium . Learn more about participating distributors .	
LED A-Lamps / Omnidirectional	\$2.00		
LED screw-base decorative lamps	\$2.00		
LED MR-16	\$3.00		
LED directional lamps (PAR,BR,R,20,30,38,40)	\$4.00		
LED downlight retrofit kit	\$6.00		
CFL-LEDs (CFLEDs) (4-pin only)	\$3.00		
Lighting to Go incentives are eligible only through participating distributors and may not be included in projects receiving incentives through the commercial retrofit lighting program.			
CONSERVATION ACTION	INCENTIVE (\$/kWh)	MEASURE NOTES	
HVAC (HEATING, VENTILATION AND AIR CONDITIONING)			
Chillers—water-cooled	\$0.27		
Chillers—air-cooled	\$0.27		
Air-to-air heat pumps	\$0.27		
Hydronic heat pumps	\$0.27		
Packaged terminal air conditioners (PTAC)	\$0.27		
Packaged terminal heat pumps (PTHP)	\$0.27		
Variable refrigerant flow heat pumps	\$0.27		
Air conditioners	\$0.27		
Computer room air conditioners (CRAC)	\$0.27		
Variable speed drives (HVAC applications)	\$0.27		
Economizers	\$0.23		
Cooling towers	\$0.27		
HVAC controls	\$0.23		
Advanced rooftop controls (ARC)—ARC Lite	\$150 per ton	Variable speed, multi-speed or cycling of the supply fan that meets ventilation and space conditioning needs per ASHRAE 62.1 or local jurisdiction code requirements	
Advanced rooftop controls (ARC)—ARC Full	\$225 per ton	Above, plus digital, integrated economizer control, CO2 Demand Control Ventilation (ARC-Full only)	
Connected Thermostat (Commercial HVAC units)	\$200 each	Each thermostat must control a separate supply fan to receive incentive. Custom calculated incentive in hotels/lodging.	

CONSERVATION ACTION	INCENTIVE (\$/kWh)	MEASURE NOTES
DATA CENTER AND IT EQUIPMENT		
Efficient uninterruptible power supply (UPS) systems	\$0.12	Firmware upgrade offering a high efficiency mode
Efficient uninterruptible power supply (UPS) systems	\$0.23	New UPS
Server virtualization	\$150	For each server removed; Max. 100
Custom IT equipment/software—plug loads	\$0.07	
Air flow management	\$0.06-.20	Depending on technology used
CRAC unit fan variable speed drives and controls	\$0.20-.23	
Economizers and direct evaporative cooling	\$0.23	
MISCELLANEOUS		
Air compressors	\$0.27	
Efficient transformers	\$0.27	
Process loads—for industrial customers	\$0.27	
Variable frequency drives (VFD/VSD)	\$0.27	
MULTIFAMILY WEATHERIZATION		
Replace any single-pane, or metal double-pane window with ≤ 0.30 U-factor window	\$6 per square foot	
Replace any single-pane, or metal double-pane window with ≤ 0.22 U-factor window	\$8 per square foot	
Upgrade existing attic, floor, or wall insulation	\$0.75 per square foot	Contact City Light for details on qualifying existing insulation conditions
Exterior door, Energy Star certified	\$40 per door	Replacing substandard exterior door. Contact City Light representative for details.
<i>To receive funding for the above weatherization measures, the spaces must be electrically heated and the customer must replace all windows serving the living units unless some windows already have U-values of 0.30 or less.</i>		

All measures must comply with [Commercial Retrofit Program Requirements](#). Incentives may not exceed 70% of project costs. Incentives are capped at a payback period of at least six months. Incentives are subject to availability of funds. A Participation Agreement between Seattle City Light and the customer must be in place before installation. Incentive funding is estimated only when a Participation Agreement is signed between Seattle City Light and the customer."
